

The 7 Stages of Phoneme Development

Instructor:

**Stephen Sacks
M.A., CCC-SLP**

3 Hour Recorded Webinar

Course Objectives

- To learn the 7 stages of phoneme development
- To learn the action skills for each stage
- To learn how to transfer developed skills into the SATPAC Program

Learning Outcomes

The workshop is designed to train the SLP to:

- Identify the stages of the phoneme development
- Develop remediation procedures for each level of development
- Identify gaps in the learning process of the various stages and how to fill them

--	--

This course is offered for .3 ASHA CEUs
(Intermediate level, Professional area).

Marshalla's 7 Stages of Phoneme Development

Highly unintelligible children often do not follow the developmental pattern that children who speak normally do. Pam Marshalla developed the 7 stages of phoneme development which allows one to see where students are developmentally and what they need to do to develop appropriate speech. Each step is clearly shown through examples and suggestions are given as to how to foster the development of these skills.

This webinar will feature recordings by Pam Marshalla explaining the various stages of phoneme development.

Workshop Comments

(NOTE: This is a new webinar. Previous webinar comments are provided:)

This presentation was wonderful in its systematic approach... Your videos were excellent.

Excellent course-thank you for sharing your knowledge to help us help others.

Course was excellent. Videos and photos in hand-outs were the best I've ever seen. Superior course!

Wonderful program and training.

I think the content was fantastic.
