

## **An Introduction to the SATPAC Program and Approach-Live Webinar**

August 29, 2022 at 10:00 AM Pacific Time

Presented by: 2011 ASHF Award Recipient  
Stephen Sacks, M.A., CCC-SLP

This live webinar (not for CEUs) will give the basics of the SATPAC Program and Approach that has been so successful in remediating speech sound disorders. The webinar will last approximately 2 hours including questions which I will be happy to answer at the end of the webinar. If you like what you hear, I will be doing a series of three 3-hour webinars for CEUs beginning in September going into much more detail, including specific sound remediation, peer-reviewed studies of SATPAC and case studies. All webinars will be recorded and if you sign up, you will receive links to the presentations if you would like to watch and receive the CEUs at your convenience.
