Using the SATPAC Program and Approach to Remediate Speech Sound Disorders-Part 3

(Carryover, Navigating the SATPAC
Program, Research Studies, and
Case Studies Using the Program)

Instructor:

**Stephen Sacks
M.A., CCC-SLP**

**Live Webinar
3/20/26
9:00 AM to 12:15 PM**

All times are Pacific Time Zone.

Course Objectives

- To demonstrate an understanding of successful techniques for carryover of error sound remediation into conversational speech
- To demonstrate an understanding of the various ways that the SATPAC Program can be customized for specific remediation of individual's unique error patterns
- To compare SATPAC Peer-Reviewed studies with other methods for remediation of speech sounds

Learning Outcomes

The workshop is designed to train the SLP to:

- Understand the rationale for various carryover techniques for successful application to conversation as shown on the quiz
- Recall the remediation success model of the SATPAC peer-reviewed studies as a justification for using a different non-traditional model of therapy
- Demonstrate comprehension of the SATPAC Approach through remediation techniques in case studies as shown on the quiz

About **SATPAC**

"SATPAC is an amazing resource."

-Pam Marshalla

"SATPAC is a valuable tool..."

-Wayne A. Secord, Ph.D

SATPAC is an evidence-based computer program incorporating facilitating contexts, coarticulation and natural prosody. The program generates customized lists of non-words as well as real phrases and sentences leading to rapid remediation as shown in peer-reviewed studies due to the systematic nature of the lists.

Workshop Comments

"What a great time saver."

"This was probably the clearest, most functional presentation on artic./phonology I've seen in recent memory."

"I can't imagine improving on the info today."

"Too bad all workshops aren't this helpful."

"This was a great in-service."

"Your training was fabulous!"

"Wow, what a lot of work and thought you put into this program."

"What a useful product and approach."

"What a contribution to our field!"

"Great system. I have used it with success."
